Dear Parents/ Guardians,

Re: 2025 Voluntary Contributions and Charges

The Newman Primary School Board has endorsed the 2025 school contributions and charges schedule, which is attached to this letter. This schedule includes how your contributions are used across the school.

Under the Department of Education regulations, schools are entitled to set the voluntary contribution at a maximum rate of \$60.00 per child.

Charges refer to the cost for activities that students may participate in to enrich their education. These activities are optional, and the school is required to inform parents of the maximum that may be charged in a school year; most of course will be much lower. The payment of charges will be requested and communicated to you prior to that event.

Payment for **2025** contributions can be done through the Booklist or alternatively via EFTPOS (not available over the phone) or direct deposit. **(Please note new bank details)**

If you have any queries, please contact the school Admin Office on 9154 3900.

Yours sincerely

Robyn Hudson
